ANTI-BRIBERY AND ANTI-CORRUPTION POLICY

Equiterra Capital LLC

Document ref: **EQ-COMP-002** Version: **1.0** Effective date: **1 March 2026** Approved by: **Board of Managers**

1. Statement and Scope

Equiterra Capital LLC and its subsidiaries and affiliates (together, "Equiterra" or the "Company") maintain a zero-tolerance position on bribery and corruption. This Anti-Bribery and Anti-Corruption Policy (the "Policy") applies to all directors, officers, employees, consultants, agents, intermediaries and other third parties acting for or on behalf of the Company (collectively, "Personnel and Associated Persons"), in every jurisdiction in which the Company operates.

This Policy is aligned with the principles of the United States Foreign Corrupt Practices Act of 1977 (the "FCPA") and the United Kingdom Bribery Act 2010 (the "UK Bribery Act"). Where local law imposes a stricter standard, the stricter standard applies. The Company applies this Policy to dealings with both public officials and private parties.

2. Prohibited Conduct

It is prohibited, directly or through any third party, to:

- offer, promise, give or authorize any payment, gift or other advantage to any person in order to improperly obtain or retain business or any commercial, contractual, regulatory or personal advantage;
- request, agree to receive or accept any such advantage from any person;
- bribe a public official, including any officer or employee of a government, state-owned entity, public international organization, or designated national authority, to influence an official act or decision; and
- make facilitation payments — small unofficial payments to secure or expedite routine governmental action. Facilitation payments are prohibited without exception.

UK Bribery Act note: Unlike the FCPA, the UK Bribery Act contains no exception for facilitation payments and creates a corporate offence of failing to prevent bribery. This Policy and its controls constitute the Company's "adequate procedures" defence.

3. Sector-Specific Risk: Carbon and Energy

The Company recognizes elevated corruption risk at the interface with government in the carbon and energy sectors. Heightened care and documentation apply to:

- project authorization, host-country approval and Letters of Authorization or Eligibility from Designated National Authorities;
- Article 6 corresponding adjustments and the issuance, registration and transfer of carbon units;
- permits, concessions, land tenure and community benefit-sharing arrangements; and
- engagement of local agents, advisors and facilitators in higher-risk jurisdictions.

4. Gifts, Hospitality and Expenses

- Gifts and hospitality must be modest, infrequent, transparent, given openly, and never intended to improperly influence a decision.

– Anything beyond nominal value, and any gift or hospitality to or from a public official, requires prior written approval from the Compliance Officer and must be recorded in the gifts and hospitality register.
– Cash or cash-equivalent gifts are prohibited.

5. Third Parties, Agents and Intermediaries

Third parties are a principal source of bribery exposure. Before engaging any agent, intermediary, consultant, broker or introducer, the Company conducts risk-based due diligence, and corruption risk is a mandatory screening factor under the Company's counterparty due diligence and onboarding procedures.

– Engagements are governed by written contracts containing anti-corruption representations, audit rights and termination rights for breach.
– Success fees, commissions and the use of intermediaries are scrutinized for proportionality and legitimacy.
– No third party may be engaged to do indirectly what Personnel are prohibited from doing directly.

6. Political and Charitable Contributions

– Political contributions on behalf of the Company are prohibited unless approved in advance in writing by management.
– Charitable donations and community contributions must be legitimate, transparent and not a disguised improper advantage; they require Compliance Officer approval where connected to a transaction, counterparty or official.

7. Books, Records and Internal Controls

– All transactions must be recorded accurately, fairly and in reasonable detail. No undisclosed, false or off-book accounts, funds or entries are permitted.
– Internal controls are maintained to provide reasonable assurance that transactions are properly authorized and recorded, consistent with FCPA accounting provisions.

8. Reporting, Investigation and Consequences

Personnel must report any actual or suspected breach of this Policy to the Compliance Officer promptly. Reports may be made confidentially and in good faith without fear of retaliation. The Company investigates reports, cooperates with authorities as appropriate, and treats breach as grounds for disciplinary action up to and including termination, and for termination of third-party relationships. Bribery and corruption may also constitute criminal offences for individuals and the Company.

Report a concern: Compliance Officer, Equiterra Capital LLC — compliance@equiterra.capital

9. Ownership, Training and Review

– The Compliance Officer owns this Policy, delivers anti-corruption training at onboarding and periodically, and maintains the supporting registers.
– This Policy is reviewed at least annually and updated to reflect changes in law and the Company's risk profile.

Approval

Adopted by the management of Equiterra Capital LLC.
