SANCTIONS COMPLIANCE POLICY

Equiterra Capital LLC

Document ref: **EQ-COMP-003** Version: **1.0** Effective date: **1 March 2026** Approved by: **Board of Managers**

1. Statement and Scope

Equiterra Capital LLC and its subsidiaries and affiliates (together, "Equiterra" or the "Company") are committed to full compliance with all applicable economic and trade sanctions and export-control laws. This Sanctions Compliance Policy (the "Policy") applies to all directors, officers, employees, consultants and agents acting for the Company, and to all transactions and counterparties.

Applicable regimes include, without limitation, those administered by the United Nations Security Council, the United States Office of Foreign Assets Control (OFAC), the European Union, and the United Kingdom (OFSI). Where more than one regime applies, the Company complies with the most restrictive applicable requirement.

2. Core Prohibitions

– The Company will not deal, directly or indirectly, with any person or entity that is the target of sanctions (a "Restricted Party"), including parties owned 50% or more, or otherwise controlled, by a Restricted Party.
– The Company will not engage in transactions involving comprehensively sanctioned countries or territories, or in conduct designed to evade sanctions.
– The Company will not facilitate a transaction by a third party that the Company itself could not lawfully undertake.

3. Higher-Risk Jurisdictions

The Company originates and transacts in jurisdictions assessed as higher risk. For these markets the Company applies heightened controls:

– enhanced screening of counterparties, ultimate beneficial owners and, where relevant, downstream parties;
– geographic and counterparty risk assessment before commitment; and
– documented escalation of any transaction presenting potential sanctions exposure to the Compliance Officer for clearance before it proceeds.

4. Checks and Controls

The Policy is supported by the following checks and controls, operated through the Company's counterparty due diligence and onboarding procedures:

Control	Description	Frequency
Onboarding screening	Screen counterparty, UBOs and directors against UN, OFAC, EU and UK lists.	At onboarding
Ongoing screening	Re-screen against updated lists and on ownership / control change.	Periodic / on trigger

Control	Description	Frequency
Escalation	Route positive or inconclusive matches to the Compliance Officer.	On match
Transaction review	Assess sanctions nexus of jurisdiction, parties and asset before commitment.	Per transaction
Record-keeping	Retain screening results and clearance decisions for audit.	Continuous

5. Escalation and Blocking

- Any potential or actual sanctions match must be escalated to the Compliance Officer immediately, and the relevant activity suspended pending clearance.
- Where a transaction would, or may, breach sanctions, it is blocked and, where required, reported to the competent authority.
- No commercial pressure or deadline overrides a sanctions concern.

Escalate a sanctions concern: Compliance Officer, Equiterra Capital LLC — compliance@equiterra.capital

6. Responsibility, Training and Review

- The Compliance Officer owns this Policy, maintains screening tools and lists, and reports sanctions matters to management.
- Personnel receive sanctions-awareness training at onboarding and periodically.
- This Policy is reviewed at least annually and updated to reflect changes in applicable sanctions regimes and the Company's risk profile.

Approval

Adopted by the management of Equiterra Capital LLC.
